Jeff,

Thanks for your quick response.

Jon was over this afternoon and installed the trim, thanks again.

I want to thank you (McBride) and all your subs on a very good and almost painless kitchen redo. Everyone involved in this project was very friendly, knowledgeable and professional. I want to let you know how impressed we were with Jon, his workmanship was outstanding, his ability to work with the public was exemplary. There was nothing that we asked for that was not taken care of and in a timely manner and the most important trait was that Jon was dog friendly. If not, we would have had to either have someone on site to take care of our dogs or put them in kennels.

It has been a privilege having you and your company in our home and we would never hesitate to recommend your company to anyone in need of this kind of service.

Thank you once again.

Brett & RaeAnn Kuzyk
